

 Floating Mixers and Aerators for Process Control, Bluefrog Lagoon Sludge Digestion	 Air Release, Pump Control Valves, Ball Check Valves, Double Eccentric Butterfly & Knife Gate Valves	 Case Driven Peristaltic and Diaphragm Pumps	 Polychem Rectangular Sludge Collectors, Tube Settlers, Trickling Filter Media, and Submerged Fixed Film Media	 Bituminous Coal Granular Activated Carbon Media and Contactors. PFAS Removal Technologies	 Belt Filter Presses, Gravity Belt Thickeners, and Elode Electro Osmosis Dehydrators	 Bulk Chemical Storage and Feed Equipment
 On site Sodium Hypochlorite Systems, PAX mixers, TRS, and RCS	 Clarifiers, Gravity Thickeners, and Digester Covers	 Dumpster-veyor System for Screenings and Biosolids Container Handling	 Clarifier and Thickener Drives Retrofits, and Low Speed Mechanical Aerators	 Aerators and Degasifiers	 Coarse and Fine Bubble Aeration Systems	 Capital Controls, EST, Chlorine Gas Equipment
 Geodesic Domes and Aluminum Covers	 Dewatering Container Solutions	 Jet Aeration, ISAM SBR, MCROxidation Ditch, Vortex Grit	 Decanter Centrifuges for Sludge Thickening and Dewatering	 Self-Priming Centrifugal Pumps, Packaged Lift Stations, Booster Stations	 Water and Wastewater Treatment Solutions Utilizing Membrane Technology	 Screening, Grit Removal, Sludge Thickening and Dewatering Technologies
 Geomembrane Covers and Liners, Bio Gas Holders	 Plug and Play Pump Deragging Control Technology. Overwatch Direct In-line Pump System	 Hyperbolic Mixing Technology, Rigid Cushion Air Bearing Turbo Blowers, SBR/IGSR	 Screw and Belt Conveyors	 Packaged Water Treatment Systems and Pressure Filters	 High Demand Mixers and Impellers	 Fixed Plate Cloth Media Filters
 Clow Valve, Kennedy Valve, M&H Valve and Waterman	 Vertical Turbine Pumps	 Lagoon Aeration, SAGR, Mita Cloth Media Filter, and Napier Reid Process Solutions	 15% Peracetic Acid for Wastewater Disinfection	 Rotationally Molded Polyethylene Chemical Storage Tanks	 Systems Integration, Automation and Control	 Periflo Peristaltic Pumps, Liquid Chemical Feed Systems Utilizing Peristaltic, Gear and Diaphragm Pumps
 Raked Bar Screen, Volute Dewatering Press, Wet Weather Treatment	 Filter and Water Treatment Systems	 Water and Wastewater Pumps	 Waste Water Performance Diagnostics	 Progressive Cavity Pumps	 Bio-electrode Sensor for Real Time Process Monitoring	 Custom Engineered Fiberglass Enclosures
 Submersible Solids Handling Pumps, Submersible Mixers, Magnetic Bearing High Speed Turbocompressor	 PH Control Systems	 Electromagnetic Flow Meters and Microwave Density Analyzers	 Electro-Hydraulic Actuators	 UV Systems	 Blower Systems	 Polymer Solutions and Dry Chemical Feed
 John Meunier Headworks, Suez Membrane Technologies, and Infilco Degremont Products	 Peristaltic Hose and Tube Pumps	 Rotary Lobe Pumps, Macerators, and Twin Shaft Grinders	 Aeration Equipment	 FRP Baffle Walls, Enclosures and Clarifier Products
